Description

Modernist crucified Christ in bronze signed P. Dudeffant - 20th century
Stunning Modernist crucified Christ in patinated bronze, set on a rough wooden cross. The work is distinguished by a stylized, expressive treatment of Christ's body, with slender forms and deliberately uncluttered modeling, characteristic of twentieth-century modern religious sculpture. The tension of the lines, the sobriety of the drapery and the intensity of the face give this sculpture a strong spiritual and decorative presence. The bronze bears the signature "P. Dudeffant" engraved on the side. Beautiful devotional or collector's work that could fit equally well into a contemporary interior or a modern sacred art ensemble. Dimensions: Height: 57 cm Width: 32 cm
Good overall condition with beautiful original
