Description

Oil on canvas with knife - Modern art of the 20th century
Beautiful oil on canvas depicting the famous Pointe du Van mill in Cap Sizun, in a typically Breton atmosphere of changing, luminous skies. The artist uses a generous material worked with a knife, offering powerful impasto visible in the sky, grasses and foliage. This energetic, expressive touch brings the work closer to the post-impressionist movement and certain modern regionalist schools of the mid-20th century. The composition seduces with its windy, poetic atmosphere, with this isolated mill dominating a Breton landscape with particularly nuanced green and bluish tones. Monogram lower right. Canvas dimensions : 61 x 46 cm (format 12P) Dimensions with frame : 72 x 56 cm Good overall condition. Framed in patinated wood. A
