

## An Antique Drawing Of A Dragon From The 1700s

500 EUR

Period : 18th century

Condition : Bon état

Material : Paper

Length : 30

Width : 25

### Description

An elegant antique drawing executed in pen and brown ink, depicting a dragon with outstretched wings, undoubtedly from the Borghese or Boncompagni-Ludovisi coat of arms. The creature is shown in full face with its head turned in profile, embellished with exquisite details: stylized scales, leaf-like scrolls, and sinuous motifs typical of the ornamental repertoire of the 17th and 18th centuries.
