

## World War I British Brodie Helmet

880 EUR

Period : 20th century

Condition : Bon état

### Description

A fine example of a WWI British Model "B" helmet. It retains approximately 95 % of its original olive-green textured paint. The owner has added a badge holder to the front, allowing the regimental insignia, in this case that of the Machine Gun Corps, to be attached. The interior is complete with black waxed canvas cap. The owner's name and address are inscribed on the cap pad, but are unfortunately illegible.
