Charming fantasy composition depicting a shore animated by several characters in a seascape. In the foreground, two young women busy around fishermen's baskets are accompanied by a man dressed in red, while a seated fisherman completes the scene. In the background, several ships at anchor stand out in a misty atmosphere, dominated by an impressive rocky arch serving as a repulsor. The work is in the tradition of the harbor landscapes and maritime capricci popular in the 18th century, blending observation of everyday life with picturesque evocation.
