Description

Beautiful pair of handcrafted coffee tables in carved exotic wood, probably made in Indonesia (Bali or Java). Each top features remarkable high-relief decoration depicting scenes of tropical rural life: houses on stilts, figures, lush vegetation, animals and a traditional cart. The carving is particularly detailed, with a beautiful depth of relief. The free-standing bases rest on four richly carved feet with floral decoration, in the traditional Balinese taste. A decorative ensemble of fine presence, typical of Southeast Asian handicrafts intended for export. Condition: good general condition with slight traces of use consistent with age; some repairs to the palm trunks in particular, but no missing parts; consolidations with screws on the base. Species used: Teak (frame and legs) and Suar wood
