

Flageolet

980 EUR

Period : 18th century

Condition : Très bon état

Material : Water color

Width : 32 cm

Height : 38 cm

Description

Beautiful watercolor from the Louis XV period depicting the flageolet player, in a gallant symbolism typical of the late 18th century, the flageolet visually brushes against the wreath of flowers, while the shepherd's gourd undertakes the damsel's hat, whose foot, resting on that of the boy, concretizes these metaphors. Nice frame.
