Description

Important "Missouri" model crystal service from the Baccarat manufacture, comprising 69 pieces. Created in the 1950s, the Missouri model embodies all the expertise and excellence of French crystal-making. Cut with delicate flat ribs, it seduces with the purity of its lines and the conical silhouette of its goblets, a subtle evocation of the first cut-crystal services of the XIXe century. At once sober and elegant, the Missouri is a masterpiece of French crystal. At once sober, elegant and timeless, this model is in keeping with Baccarat's great decorative tradition. Referenced in the manufacture's catalog in 1970, the Missouri service remains particularly sought-after today for its balance between classicism and modernity. Crystal captures the essence of Baccarat. The crystal catches the light
