Description

Superb pair of Bowers & Wilkins B&W 808 speakers, a mythical model from the great era of high-end English Hi-Fi, manufactured in England in the 1980s. These speakers were among the most prestigious audiophile references of their time and remain highly sought-after today by enthusiasts of High End sound, studio monitoring and exceptional vintage equipment. With their imposing wood-finish cabinet and sophisticated acoustic architecture, the B&W 808s offer spectacular sound reproduction: deep, powerful bass, extremely natural midrange, detailed highs without aggression, a wide, highly immersive soundstage. We find the musicality typical of great English audiophile loudspeakers capable of rivaling legendary references such as the JBL Everest, Tannoy Westminster, Klipschorn,

Yamaha NS-1000 or even the big Infinity and vintage Wilson Audio. High-end acoustic configuration with double bass woofer, dedicated midrange and high-definition tweeter, as well as separate HIGH / MID / LOW FREQUENCY terminal block allowing bi- or tri-wiring for demanding audiophile installation. This type of design was intended for very high-end systems associated with prestigious electronics such as McIntosh, Accuphase, Mark Levinson, Krell, Luxman, Audio Research, Jadis or Naim Audio. The rendering is both powerful, warm and extremely detailed. These speakers have an impressive sonic presence and easily fill a large room with a full, precise stereo image. Dimensions: 110 cm x 63.5 cm. Perfect operation, all speakers working correctly. Possibility to come and listen and test them on site to fully appreciate their performance. Perfectly functioning, all speakers work correctly.
