Description

Rareful and highly refined, this Empire Restoration dental hygiene set dates from the first quarter of the 19th century, and is made of solid silver hallmarked with the lictor beam (1809-1819). The original compact slipcase is sheathed in red morocco and delicately embossed with a frieze of stars and gilded water leaves. The interior, which has remained very fresh, reveals a complete -A solid silver-handled toothbrush, chased with neoclassical wave and palmette motifs.-A matching rectangular-shaped case in solid silver, with removable lid and interior compartment, featuring the same chasing.- two solid silver instruments, a toothpick and an ear pick.-Three fine steel care instruments featuring very elegant baluster-turned handles and gilded metal rings .Inside the lid, the original mercury
