### Description

Charming pocket watch, featuring beautiful painted enamel work with miniature decoration. The case is adorned on the reverse with a delicate galant scene, created on a deep blue background, enhanced by a surround set with cut white stones (probably period rhinestones). The white enamel dial with Arabic numerals hosts in its center a painted decoration depicting a landscape animated by a mill. Antique mechanical movement visible at the opening. Beautiful decorative quality and refinement typical of 18th-century production. Note: wear and traces of time, works but stops.
