Description

A set of eight pieces made of woven metal, designed to resemble traditional plant-based basketry. The set consists of:- two small baskets with handles, ideal for serving small appetizers;- four medium-sized baskets, suitable for serving bread or other foods;- two insulated cylinders designed to keep a bottle of wine at the desired temperature, thanks to their double-walled metal construction. Condition: good overall condition.

The following are noted: slight oxidation on the silver-plated surface, consistent with use and age; a slight
