

Presumed Bronze Bust Of Dr. Hahnemann By Adam-salomon, Circa 1850

340 EUR

Signature : Antony-Samuel Adam-Salomon (1818-1881)

Period : 19th century

Condition : Bon état

Material : Bronze

Description

Nineteenth-century bronze bust, dated circa 1850, depicting the presumed portrait of Doctor Christian Friedrich Samuel Hahnemann (1755-1843), founding physician of homeopathy. The work has an original brown patina and bears the point-engraved signature "Adam Salomon Scpt." on its base. This cabinet sculpture measures 22 cm high, 8.5 cm wide and 12.5 cm deep.
