### Description

Cadre Napoléon III En Bronze Doré Et Émaux Polychromes, Vers 1870 Rare and elegant presentation frame from the Napoleon III period, made of gilt bronze, richly decorated with ruby-red and polychrome enamel ruby red and emerald green. Inspired by the Louis XVI style Louis XVI, it features a refined décor of pearled friezes, openwork foliage and pediments with plant motifs. The enamelled panels offer a remarkable contrast with the gilding and reflect the Second Empire's taste for precious and luxurious objects. The central circular central medallion is designed to hold a miniature, photograph or portrait. The present image is merely an element of presentation and does not constitute the main object of the sale. The
