4 500 EUR

Period : 19th century

Condition : Bon état

Material : Bronze

Width : 30

Height : 41

Depth : 18

Description

Decorative silvered bronze bowl resting on a sculpted group depicting a winged putto riding a seahorse amid the waves.The bowl, with its movement evoking a shell, is richly decorated with marine motifs and rests on an openwork base with rocaille decoration.This composition, inspired by ancient mythology and the marine world, perfectly illustrates the eclectic and theatrical taste of the Second Empire.Very fine decorative quality for this presentation piece that can be used as a centerpiece or ornament.
