Description

Antique bracelet composed of seven lava stone cameos depicting the faces and busts of young women, each in a different shade. Each cameo is set within an oval motif edged with a gold cord and linked to the next by silver rings adorned on the front with a half-pearl of vermeil. The clasp is a ratchet type. Period: 20th century. Main material: vermeil, ram's head hallmark. Proportions: Length: approximately 18.5 cm, height: approximately 2.2 cm, thickness: approximately 8 mm, inner circumference: approximately 17 cm. Net weight: approximately 29.6 g. Authentic antique jewelry - French work from the early 20th century. Our opinion: An antique lava stone bracelet in very good condition for its age; only the tips of the noses of some of the young women show slight patina. To learn
