Description

Pair of panels, oil on canvas, ToscaniThese 20th-century panels on canvas depict a refined garden scene in the trompe-l'oeil style. The composition opens onto a sage-green trellis framing a large woven basket, brimming with flowers and fruits, rendered in delicate pastel and beige tones. Small birds in flight stand out in the upper section, while the lower register is decorated with classical elements: a large central shell flanked by symmetrical motifs of stylized salmon-colored dolphins and vine leaves. The piece combines neoclassical elegance with bucolic freshness, making it ideal as a vintage wall decoration.
