Description

Florentine handcrafted ceiling light by Banci, composed of a dense arrangement of gilded, hammered-iron leaves and five-petal floral corollas made from individually mounted faceted crystal drops, creating a sparkling play of light. At the centre, the structure conceals six light points (small-socket fittings), cleverly hidden beneath the luxuriant dome of leaves and flowers, providing effective illumination.Condition: very good overall condition; minor signs of wear consistent with age and craftsmanship. Original electrical wiring, fully functional.Note: we also have six wall sconces from the same manufacturer and in the same decorative model, forming a coherent and rare ensemble:https://www.proantic.com/1529869-paire-appliques-anciennes-en-fer-et-cristal-banci-flor
