Description

Bronze-patinated bellowing stag Signed De Fiesole An elegant animal sculpture depicting a bellowing stag, captured in one of the most iconic moments of the wild. With its head raised and antlers spread, the animal conveys all the power and nobility of the great deer. The sculptural work demonstrates a remarkable eye for detail, with precise anatomical modeling and a beautiful rendering of movement. The bronze-brown patina highlights the reliefs and lends the piece depth and character. The composition rests on a naturalistic base evoking rocky terrain. Signed De Fiesole, this work follows in the tradition of 20th-century decorative animal sculptures, highly prized for their elegance and expressive power. Dimensions Width: 50 cm Height: 40 cm Depth: 16.5 cm Condition Very good overall
