Description

Lefaucheux-system hunting pistol with pin-fire mechanism, side-by-side double barrel, and retractable bayonet - 19th centuryA rare and attractive Lefaucheux-system hunting pistol, with two side-by-side barrels and a pin-fire mechanism, dating from the second half of the 19th century. This weapon, intended for personal defense or travel, stands out for its ingenious design and distinctive silhouette, combining compactness, efficiency, and elegance.The weapon features two side-by-side barrels and a fully functional exposed hammer mechanism. It retains its retractable bayonet integrated beneath the barrels, which extends with a simple maneuver to increase the total length from 23 cm to 34 cm. This feature, particularly sought after by collectors, attests to the ingenuity of the
