

20th-century Wooden Sculpture Of A Dolphin

560 EUR

Period : 20th century

Condition : Très bon état

Material : Solid wood

Length : 83 cm

Height : 30 cm, 39 cm sur son socle

Depth : 8 cm

Description

A depiction of a dolphin or sea monster, carved from solid hardwood. Its tail is coiled and covered with large scales; its mouth is wide open, spouting water. This piece follows the style of ancient engravings and sculptures. This object was once painted and retains flaking traces of paint, likely due to prolonged outdoor exposure. This dolphin is sold with its metal display stand, which provides good stability.
