300 EUR

Period : 20th century

Condition : Bon état

Material : Wallnut

Width : 31cm

Height : 32cm

Depth : 16cm

Description

This curious carved wooden console table is a fine example of mountain folk art, featuring fir-tree-shaped silhouettes assembled and secured beneath the tabletop on supports arranged to give it a conical shape.Brass elements, nails on some of the silhouettes, and the shelf's border complete the design. Viewed from the back, the construction is truly interesting. It's in good condition, natural finish!
