Material : Glass

Diameter : 16 cm

Height : 16 cm

Description

A lovely, large spherical vase decorated with pink and red weigela blossoms by Gallé. A truly beautiful vase, entirely acid-etched with a rich floral design running all the way around the vase. Leaves at the base, buds, and weigela flowers rise up the sides of this ball-shaped vase, a form that remains highly sought-after. Note the very pretty colors--a red and pink decoration that shifts depending on the viewing angle, set against an intense honey-colored background--a hallmark of quality pieces by Gallé. I'll let you be the judge. This is not a small piece, measuring 16 cm in height and 16 cm in diameter. In perfect condition, signed "Gallé" on the side, circa 1900. A truly beautiful piece--shape and color, fine quality--a little Art Nouveau gem!
