Description

Dating from the 1950s, this impressive architectural work reflects the grandeur of Italian garden art and the enduring influence of classical and Renaissance decorative traditions. The fountain features an elegant marble structure of monumental proportions, crowned by a graceful female bronze statuette that serves as the focal point of the composition. The contrast between the noble marble and the richly patinated bronze creates a striking visual effect, while the harmony of the whole evokes the grand fountains of historic Italian villas and gardens. Its exceptional dimensions and refinement make it an ideal centerpiece for prestigious residences, French gardens, courtyards, luxury hotels, or landscaping projects seeking a spectacular focal point.
