Pair of Renaissance-style walnut side tables - 19th century
An elegant pair of display side tables in walnut, resting on turned and fluted legs of great finesse. The square tops and molded bases are adorned with carved decoration that highlights the quality of craftsmanship in this set. The harmonious design, inspired by the classical repertoire, is characteristic of furniture from the Napoleon III period. The balanced proportions and the rich grain of the wood make these stands ideal for displaying sculptures, vases, bronzes, or objets d'art. The wood features beautiful, warm highlights and a particularly decorative antique patina. This pair of pedestals can also be used as decorative elements in a classical or eclectic interior.
