Description

A charming Restoration-era perfume set or small fragrance cabinet (fragrance set) in gilded bronze, round in shape, comprising four quarter-round vials with small, ornately worked bronze rings and faceted cut-glass stoppers.The four bottles fit perfectly into their gilded bronze holder in the Louis XVI style, decorated with lovebirds on quivers and flaming torches above a frieze of floral motifs and arabesques surrounding antique vases.Take a close look at the photos--the quality of the engraving is superb.The set is in excellent condition; there is just one stopper stuck to its bottle by old perfume--I don't dare force it open.A very beautiful four-bottle perfume set--a exquisite, meticulously crafted, and precious object.A beautiful objet d'art Dimensions:11 cm high by 5 cm in diameter.We deliver and ship
