Description

1900 Vase with Iris Design by Baccarat A model well known to collectors but still highly sought after for its superb colors, which contrast beautifully with the marbled background that reflects light particularly well. The design is entirely etched and finely glazed over, with the entire piece enhanced by gold glazing. The photos speak for themselves--I'll let you be the judge... Very good condition (some gilding missing on the neck, which is completely normal), 20 cm tall, circa 1890-1900. A piece that's as luminous as ever--a little gem!
