Description

Monumental Art Deco vase with a stylized lavender design by Schneider. What a stunning piece--this very large vase, entirely acid-etched, features a continuous band of lavender motifs (highly stylized, it must be said), but it is a model officially cataloged as such by Schneider. With very pretty shades of blue and purple, this glass artist is considered a master of color--and that's certainly true here as well. A luminous vase with a wide body--it certainly doesn't go unnoticed.... Large dimensions: 32 cm wide, 22 cm tall, weighing nearly 5 kilos! In perfect condition, double-signed "charder" and "le verre français," circa 1925. A beautiful and impressive Art Deco piece--what colors!
