Description

Vase-shaped clock with a shield-shaped case in mercury-gilded bronze and patinated bronze, featuring a very beautiful armillary sphere. Very beautiful Empire-era movement, serviced by a clockmaker; springs dated 1813; the wire suspension has been replaced with atongue suspension; otherwise, the entire movement is original to the Empire period--the fork has not been changed, and the pendulum has been adapted to the fork like a wire-suspended pendulum....Height 38Base 11UPS SHIPPING
