

## English Barber - Victorian Era

380 EUR

Period : 19th century

Condition : Bon état

Material : Mahogany

### Description

A fine example of a men's grooming cabinet is this solid mahogany barber's chair. An ingenious piece of furniture with a tripod base and a central section (with two drawers) that swivels on its axis. The mirror has been replaced and is also swiveling and tiltable up and down; it can be raised, but the screw that allows this requires a bit of care to be adjusted properly. The hardware and screws are made of brass, and the entire piece is in very good vintage condition. Dimensions: 140 cm high at its lowest point, 175 cm at its highest; the mirror measures nearly 50 cm in diameter including its frame. This piece can be disassembled into 3 parts! Delivery available--contact us for more details.
