Description

A historic piece of jewelry from the Louis-Philippe era, dating from around 1830. It is an 18-carat gold cross set with Perpignan garnets in a foiled back setting. Perpignan garnets are highly sought after, and the mines are now closed. This is a cross of great finesse, ideal for everyday wear. The French hallmarks are present but difficult to decipher; testing confirms that it is indeed 18-karat gold. A few stones have been replaced. Dimensions 3.7 cm x 2.7 cm, including the ram. Weight 1.70 g. Comes with a Certificate of Authenticity and in a new box. Free shipping in France with insurance, tracking, and signature upon delivery.
