Description

An elegant mirror featuring a back panel with a delicate, irregular, abstract texture finished with a taupe-colored mirror coating. The front is smooth and features a modern, dynamic hexagonal surface with rounded edges. Mounted on top is a 1-centimeter-thick oval mirror with a 1-centimeter-wide polished outer bevel. The oval mirror shows beautiful yet subtle signs of aging and has a three-dimensional appearance because it is mounted on top of the frame rather than flush with it. The mirror is mounted on the wall using the brackets shown in the last photo. A modern and minimalist mirror that is versatile in its use. Dimensions of the inner mirror: 51.0 x 70.0 cm There is no glass damage, such as chipping, etc.
