Tubogas stainless steel tubes, assembled without
welding, opening at the front into two opposing
ends made of solid 18-karat yellow gold, pavé-set
with round brilliant-cut diamonds -- 34 stones
totaling 0.51 ct, color F, clarity VS2. The stepped
shape of the gold ends echoes the Parentesi motif,
inspired by the travertine joints in the pavements
of ancient Rome. The elastic Tubogas
