

## Murano--blown Glass Vase Made Using The Sommerso Technique. Circa 1960

385 EUR

Period : 20th century

Condition : Bon état

Material : Glass

Width : 5cm

Height : 22cm

### Description

Murano - Navy and turquoise blown glass vase created using the Sommerso technique by Flavio Poli. The Sommerso technique involves layering different colors of glass to create a sense of depth.

Italian design from the 1960s. It is in good condition, though there are a few scratches on the base due to wear over time. It measures 22 cm high by 5 cm wide.
