220 EUR

Period : 19th century

Condition : Bon état

Material : Wood marquetry

Length : 45cm

Width : 30,5cm

Height : 77cm

Description

Sideboard / antique bedside table in the Transition style, dating from the late 19th century. Combining the elegant curves of the Louis XV style with the geometric lines of the Louis XVI style. Geometric "trompe-l'oeil" cube marquetry (marquetry featuring cubes with open backs) visible on the top surface, the drawer fronts, and the side panels. Trompe-l'oeil front: The piece visually features a front with three drawers fitted with handles and lock plates in chiseled bronze. In reality, it opens to a separate top drawer lined with a floral-patterned fabric, while the two "false drawers" at the bottom form a side-hinged door. Good overall condition (minor historical repairs). Delivery in France: EUR20
