### Description

Oil on copper depicting the Holy Face of Christ on an ivory-white background, late 18th-early 19th century, with a later period frame. The work depicts Christ's face in full view, set against a light background with ivory tones subtly weathered by time. His gaze, calm and penetrating, is directed toward the viewer, lending the composition a profound spiritual intensity. The delicately rendered blue-gray eyes are accentuated by meticulous work with light and shadow. Note: minor imperfections consistent with the object's age.
