Description

An elegant Scandinavian bookcase from the 1960s, combining the warmth of teak with the sleekness of a black-lacquered metal frame. Its airy, graphic design is characteristic of Nordic design from the Mid-Century Modern period. This bookcase features four open shelves offering generous display space for books, art objects, or collections, as well as a lower cabinet with two drawers for discreet and practical storage. The visual lightness of its structure contrasts harmoniously with the rich grain of the teak, creating a piece of furniture that is as decorative as it is functional. Its clean lines allow it to blend seamlessly into a contemporary interior as well as a vintage or modernist decor. A piece with character, sought after for its timeless aesthetic and versatility. Features: Period: 1960s Origin:
