### Description

A solid-carved wooden statuette...With traces of patina remaining...With gold accents...A sage or a dignitary...Seated quite securely on his throne...I'd say 16th century...Maybe even older!...It's hard to tell when you lack the expertise...Of Chinese origin...In its original condition...Even with the missing patina, it's charming...And imbued with wisdom...No issues with the wood of the sculpture...A beautiful object that has stood the test of time...I might get more detailed information from people more knowledgeable than me...I wouldn't hesitate to add more details...There's a rounded bump on its chest--maybe that's a clue...!On the back of its skull, there's a disc that looks like a little hat...If you look closely at the details of the carving...Weight... 284 gr
