1 600 EUR

Signature : Georges Tigien

Period : 20th century

Condition : Très bon état

Material : Solid wood

Description

A typical creation by French designer Georges Tigien, this pair of armchairs is made of stained beech wood with a scoubidou weave. (Or made of Prenas threads. Prenas is the name of the French plastic manufacturer. Prenas thread is "non-deformable and imperishable.") Each armchair was restored by a cabinetmaker; the scoubidou seat was reupholstered (see photo), and one chair had two legs, both of which were restored. Both armchairs are now in very good condition. The foam seats have been reupholstered with a contemporary fabric similar to the original. A typical example of French furniture from the 1950s and 1960s. Elegant and functional. The price listed is for the pair.
