

Louis XV-style Flat-topped Desk From The 1880s-1900s

1 800 EUR

Period : 20th century

Condition : Etat d'usage

Material : Wood marquetry

Length : 155

Height : 75

Depth : 85

Description

A superb center desk with two functional sides. I believe it dates from the 1880s or 1900s. It features all these bronze elements; there are two or three very small, barely noticeable chips in the veneer, but the varnish and the leather top need to be restored. The bronze work is of very high quality, and the construction is also well done. Low price, and shipping within France is available. Exchange or trade-in for a modern painting or sculpture is possible.
