Please note that the height listed is the total height; the body with the drops (without the rod) measures 30 cm / 11.81 inches. Please note that these are large crystal drops and that each chandelier weighs approximately 25 kg. For the exact weight, please contact us. They are currently designed for E27-base light bulbs and are in full working order with a refurbished electrical system. If necessary, we can adapt the socket to fit light bulbs used in your destination country, but please contact us before placing your order. These three chandeliers are majestic and unique; the bulbs inside emit a warm, golden light that filters through the prisms. The geometric facets of the individual crystals are designed to refract the light, creating brilliant reflections on the surrounding walls.
