

Molded-pressed Glass Stairball, Bronze Mount, Circa 1900-1930

180 EUR

Period : 20th century

Condition : Très bon état

Diameter : 10

Height : 18

Description

Handrail finial or stair finial. It is attached to the top of a stair railing post to elegantly finish off the handrail. Details Materials: Transparent, slightly opalescent pressed-molded glass globe. The frame and base are made of turned bronze or brass. Shape: Flattened ball with beveled sides, in a very clean, minimalist style typical of Art Nouveau / Art Deco. The bronze base with clamps allows for attachment to a wooden post.
