A striking rectangular desk, finely inlaid with various types of wood. The tabletop features several vases with flowers alternating with floral motifs, animals, butterflies, and birds. The various floral and geometric shapes are repeated throughout the desk, all enhanced by various gilded bronze elements. The sophistication of the inlays makes this table/desk very elegant. The piece can be used as either a table or a desk. Suitable for both modern, contemporary homes and classic interiors, its dual function allows it to be placed in a study, in the center of a room such as a living room, or, for example, in a hotel lobby.
