Description

A lovely little chest of drawers made of solid mahogany, featuring the elegant design typical of the Art Deco style, dating from the 1930s-1940s. Its curved front with soft lines is enhanced by floral carvings at the corners. It features three drawers, each fitted with original metal handles in a simple yet refined design. A light-colored marble top provides a contrast to the warm hue of the wood. Thanks to its compact dimensions, it will fit just as well in an entryway as a welcoming piece, in a living room as a side table, or in a bedroom.
