Description

Elegant Scandinavian coffee table made of solid teak and teak veneer, crafted in Sweden in the 1970s. This piece stands out for its elegant structure with organic lines. Its rectangular top with delicately rounded corners rests on a finely curved base, connected by a suspended lower shelf that provides practical storage space for books, magazines, or decorative objects. The clean lines, curved legs, precise joinery, and the beautiful grain of the teak all attest to the meticulous craftsmanship characteristic of Scandinavian furniture from this period. Coffee table in good condition with its original patina. A few subtle signs of wear consistent with its age, which do not affect its appearance or sturdiness. Its timeless design fits just as well in a mid-century interior as it does in a contemporary
