Width : 3,5 centimètres pour les grandes et 2,7 centimètres pour les petits

Height : 1 centimètre pour les deux

Depth : 0,6 centimètre pour les deux

Description

A set of four salt shakers...With their little salt spoons...And four pepper shakers...Or maybe four egg cups...I tried them with several of my eggs...They're so handy...!All perfectly square...!Made of gold-plated metal...I think the base is brass...With a silver-plated finish...!The material is of very high quality...With the simplest possible design...!A true Art Deco piece...So from the 1930s...Made in France...If I get any new information, I'll be sure to let you know...The gilding has faded quite a bit...But that's no big deal...!I can get a quote to either have it re-gilded or polished to remove the gilding...!Weight... 502 gr
