Description

Murano Véronese Bubble-Effect Technical Ball Ceiling Light
Seguso Vintage 60s-70s
This is a ceiling light from the 1960s-70s. It consists of a cable attached to a perforated (ventilation) tube made of black-lacquered metal, onto which a thick sphere is screwed (using a bronze metal thread) featuring a recessed cavity within the glass to hold the bulb's base. The glass features a technique of hundreds of aligned bubbles that, when lit, make the light sparkle within the crystal. This is a highly technical piece of craftsmanship. In good overall condition with minor signs of wear.
