ART--PAINTING HSTSEASCAPE"LIGHT OF THE COAST" 1982JEAN-CLAUDE IMBERT

Born in Paris, Jean-Claude Imbert eventually settled in Provence, in the Gard department. A curious and versatile painter, he experimented with various approaches and techniques. He also painted Provence, the region he had chosen to call home, including its coastline, as this work attests. This oil on canvas features a beautiful composition with magnificent, meticulously rendered light. He exhibited internationally (Italy, the U.S., Germany...) as well as in France, notably in the most prestigious Parisian galleries (Mourlot, Bernheim...). Signed "HST" at the bottom right: Imbert (19)82. Gilded wood frame. Very good condition (see descriptive photos).
