

19th Century Anatomical Model Sculpture

1 800 EUR

Period : 19th century

Condition : Bon état

Material : Stucco

Width : 22

Height : 80

Depth : 49

Description

Refined stucco sculpture depicting anatomical model of the muscular system, handmade and painted in two-tone tempera in shades of grey. The human figure, placed on a small pedestal, is characterized by an accurate representation of the anatomical muscular details both on the front and on the back of the body and face. The precision in the details makes this sculpture a work of great value. Italian manufacture of the 19th century. Measurements: H x W x D 80 x 22 x 49cm
