Description

A lovely multi-lobed Daum bowl decorated with wallflowers. A particularly striking piece with beautiful, vivid colors against a honey-colored, mottled background. Fully acid-etched, this bowl features a beautiful powder glaze at the base that produces this intensely vibrant green. It is finely glazed on top; the design stands out strongly and gives it an impressive luminosity. In perfect condition, 13.5 cm in diameter, signed with the Daum coat of arms on the side, circa 1905. A particularly beautiful bowl with these very vivid colors. A particularly successful example.
